Back-End : ExpressJS, NodeJS

Tools : GitHub, Firebase,

Database: MongoDB, Mongoose

Soft Skills: Leadership, Adaptability,

PROJECT

1. BookShop

[VIEW](#) [FRONTEND](#) [BACKEND](#)

Book Store is a role-based e-commerce app for buying and selling books, featuring secure JWT authentication and Smooth product management. Built with ReactJS and TailwindCSS, it delivers a responsive UI and user-friendly

- Role-Based Access Control assigns 'Customer' by default with optional 'Admin' roles
- Efficient Product Management streamlines book listings for buyers and sellers
- The dashboard includes all users and a revenue chart for clear insights.

2. Scholling

[VIEW](#) [FRONTEND](#) [BACKEND](#)

On this platform, students can search for the best tutors based on their favorite subjects and send a request for personalized tutoring. The top tutors are available across a wide range of subjects, using NextJS, NodeJS, Mongoose, and TypeScript

- Enabling tutors to accept or decline student inquiries,
- With dashboard notifications and seamless payment initiation upon acceptance.
- Efficiently manages courses and tutoring requests,
